

SHORELINE CHANGE SAMP

The Rhode Island Coastal Resources Management Council proudly dedicates this Shoreline Change (“Beach”) Special Area Management Plan to

Dr. Jon C. Boothroyd

Jon worked closely with the Coastal Resources Management Council (CRMC) as a mentor to staff scientists, imparting his knowledge and passion for geology, which can be found infused throughout the CRMC’s Coastal Program and plans. For this reason alone, Jon has left a large footprint on the Rhode Island coastline. Jon was a measured, consistent, and knowledgeable advocate for Rhode Island’s shoreline and he is greatly missed in this role and a friend to the CRMC program.

Jon dedicated himself to his research and equally important passing on his knowledge and love of geological processes through his many students. What set Jon apart from many other scientists was his desire and ability to make himself available to the public to pass that knowledge on to those outside of academia. He was remembered by CRMC Executive Director Grover Fugate who said Jon was, “...constantly imparting his knowledge, and he was always an educator. He was always willing to talk to any audience, and that was a hard skill to replicate.”

He left a mark at CRMC, contributing to the Salt Ponds and Narrow River SAMPs, and consistently dedicated many more hours to the Beach SAMP and other CRMC initiatives than grant funding would support.

Jon C. Boothroyd, known to many in the local scientific community simply as ‘JCB’ passed away at home on the 15th of October, 2015 at the age of 77.

Read more about the life, research, and many contributions of Jon Boothroyd at:

U.S. Congressman David Cicilline
U.S. Congressman Jim Langevin
U.S. Senator Jack Reed
U.S. Senator Sheldon Whitehouse

Rhode Island Shoreline Change Special Area Management Plan (Beach SAMP) Volume I

Approved June 12, 2018
Amended DATE

**A management program of the
Rhode Island Coastal Resources Management Council**

Council Members

(Denotes Shoreline Change (Beach) SAMP Subcommittee Member)*

Jennifer R. Cervenka, Chair*
Raymond C. Coia, Vice Chair
Janet Coit, DEM Director
Michelle Collie
Lisette Gomes
Donald Gomez*
Michael Hudner*
Paul Lemont (deceased)
Joy Montanaro
Patricia Reynolds
Jerry Sahagian
Anthony DeSisto, RI CRMC Legal Counsel

Executive Director and Shoreline Change SAMP Program Manager
Grover J. Fugate

This SAMP document was prepared for the Rhode Island Coastal Resources Management Council by the University of Rhode Island Coastal Resources Center/Rhode Island Sea Grant College Program, led by:

Teresa Crean, AICP, Marine Research Associate, Coastal Community Planner
Jennifer McCann, Director of U.S. Coastal Programs, Director of Extension
Tiffany Smythe, Ph.D., Marine Research Associate, Coastal Manager

RESEARCHERS AND CONTRIBUTORS:

Jon Boothroyd (deceased), URI CELS
James Boyd, RI CRMC
Michelle Armsby Carnevale, CRC/RISG
Caitlin Chaffee, RI CRMC
Clara Decerbo, CRC/RISG
Liana DiNunzio, CRC/RISG
Joseph Dwyer, CRC/RISG
Dennis Esposito, RWU School of Law
Janet Freedman, RI CRMC
Annette Grilli, URI Ocean Engineering
Reza Hashemi, URI Ocean Engineering
John Ryan Henry, RWU School of Law
and the RISG Legal Program
Rob Hollis, URI CELS
Sue Kennedy, CRC/RISG

John King, URI GSO
Dawn Kotowicz, CRC/RISG
Nicole Leporacci, URI MESM
Helen Manning, CRC/RISG
Alena Normann, CRC/RISG
Bryan Oakley, Eastern Connecticut State
University
Read Porter, RWU School of Law and
the RISG Legal Program
Pam Rubinoff, CRC/RISG
Tiffany Smythe, CRC/RISG
Malcolm Spaulding, URI OCE
Julia Wyman, RWU School of Law and
the RISG Legal Program
James Yeager, URI CELS

Geographic Information Systems (GIS) support provided by the URI Environmental Data Center, Department of Natural Resources Science:

Christopher Damon, GISP, Project Lead
Peter August
Greg Bonyngue, GISP
Jes Greene
Charles LaBash
Kevin Ruddock
Erica Tefft

ACKNOWLEDGEMENTS

The CRMC gratefully acknowledges the extensive time, energy and thought which the following committed individuals dedicated to the creation of the Rhode Island Shoreline Change Special Area Management Plan:

Beach SAMP Management Team

Jon Boothroyd (deceased), RI State Geologist, URI College of Environment and Life Sciences

James Boyd, CRMC

Teresa Crean, URI CRC/RISG

Christopher Damon, URI Environmental Data Center

Janet Freedman, CRMC

Grover Fugate, CRMC

John King, URI Graduate School of Oceanography

Jennifer McCann, CRC/RISG

Bryan Oakley, Eastern Connecticut State University

Malcolm Spaulding, URI Ocean Engineering

RI CRMC Beach SAMP Staff

James Boyd, Coastal Policy Analyst

Laura Dwyer, Public Educator and Information Coordinator

Louise Ford, Grant Administration

Janet Freedman, Coastal Geologist

Grover Fugate, Executive Director

Rich Lucia, Permitting

David Reis, Permitting

Tracy Silvia, Permitting

Jeff Willis, Deputy Director

Outreach Team

Teresa Crean, Team Lead, CRC/RISG

Bob Bowen, CRC

Kate Manning Butler, CRC/RISG

Monica Allard-Cox, RISG

Michelle Armsby Carnevale, CRC/RISG

Cathy Dwyer, CRC/RISG

Meredith Haas, RISG

Sue Kennedy, CRC/RISG

Jennifer McCann, CRC/RISG

Amber Neville, CRC/RISG

Pam Rubinoff, CRC/RISG

Tiffany Smythe, CRC/RISG

STORMTOOLS and CERI Team

Austin Becker, URI CELS
Teresa Crean, CRC/RISG
Christopher Damon, URI EDC
Liana DiNunzio, CRC/RISG
Annette Grilli, URI OCE
Aimee Mandeville, URI EDC
Bryan Oakley, Eastern Connecticut State University
Emily Patroliia, CRC/RISG
Malcolm Spaulding, URI OCE
Peter Stempel, URI CELS

Coastal Erosion Team

Jon Boothroyd (deceased), RI State Geologist, URI CELS
Rob Hollis, URI CELS
Bryan Oakley, Eastern Connecticut State University
Emily Patroliia, CRC/RISG
Mike Renaldi, URI CELS

Research Finance and Support Team

Kate Manning Butler, CRC/RISG
Charlotte Ferris, RWU School of Law and the RISG Legal Program
Louise Ford, CRMC
Charles Labash, URI CELS
Amber Neville, CRC/RISG
Gail Paolino, URI DOE

State Agency Assistance and Coordination

Ames Colt, RIBRWCT
Laura Sullivan, RI OHCD/CDBG-DR

Coalition of Community Leaders

Jeff Broadhead, Washington County Regional Planning Council
Art Ganz, Elise Torello, and Alicia Eichinger, Salt Ponds Coalition
Chris Littlefield and John Torgan, The Nature Conservancy
David Prescott and Wenley Ferguson, Save the Bay
Jenny Pereira, Rhode Island Foundation
Monica Staaf, Rhode Island Association of Realtors
Alice Kleczek, Bay Realty
Harvey Perry, Westerly Land Trust
Wilfred (Wil) Gates, Chairman Emeritus of GLA
William Penn, Block Island Residents Association

Shannon Brawley, Rhode Island Nursery and Landscape Association
Tim Statiunas and Tom D'Angelo, Rhode Island Builders Association
Mark Male, Independent Insurance Agents of Rhode Island
Barbara Cardiff (deceased), Villa B&B, Westerly Chamber of Commerce

Beach SAMP Chapter Review Focus Group Members

Lisa Bryer, Town of Jamestown
David Caldwell, Rhode Island Builders Association
Michael DeLuca, Town of Narragansett
William DePasquale, City of Warwick
David Everett, City of Providence
Daniel Geagan, City of Warwick
Meg Kerr, RI Audubon
Rita Lavoie, Town of Middletown
Kate Michaud, Town of Warren
Amy Moses, Conservation Law Foundation
Jay Parker, Town of Westerly
David Prescott, Save the Bay
Allison Ring, Town of New Shoreham
Chelsea Siefert, Town of South Kingstown
Larry Taft, RI Audubon
John Torgan, The Nature Conservancy
Jane Weidman, Town of Charlestown

Guest Speakers, Beach SAMP Stakeholder Meetings

Jon Boothroyd (*deceased*), RI State Geologist, URI College of Environment and Life Sciences (*April 4, 2013*)
James Boyd, Coastal Policy Analyst, Rhode Island Coastal Resources Management Council (*October 22, 2014 and August 25, 2016*)
Michelle Burnett, (*formerly*) State Floodplain Coordinator, Rhode Island Emergency Management Agency (*July 10, 2013 and September 29, 2015*)
Caitlin Chaffee, Coastal Policy Analyst, Rhode Island Coastal Resources Management Council (*October 22, 2014*)
Margaret Davidson, J.D., (*deceased*) Acting Director, NOAA Office of Ocean and Coastal Resource Management (*November 25, 2013*)
Christopher Damon, GISP, Geographic Information Systems (GIS) Applications Specialist, URI Environmental Data Center (*January 20, 2015*)
Michael DeLuca, AICP, Director of Community Development, Town of Narragansett, RI (*September 29, 2015*)
Bob Desaulniers, Federal Emergency Management Agency (*July 10, 2013*)
Robert Fairbanks, P.E., President, Fairbanks Engineering Corp. (*December 9, 2013*)
Susan Farady, J.D., Director, Marine Affairs Institute and RI Sea Grant Legal Program (*December 9, 2013*)

Wenley Ferguson, Save the Bay *(October 22, 2014)*
Janet Freedman, Coastal Geologist, Rhode Island Coastal Resources Management Council *(May 3, 2016)*
Amy Grzybowski, (formerly) Director of Planning, Code Enforcement, and Grant Administration, Town of Westerly, RI *(July 24, 2014)*
Christopher Hatfield, Project Manager, U.S. Army Corps of Engineers *(December 1, 2016)*
Christopher P. Jones, P.E. *(April 21, 2015)*
Nicole Leporacci, URI Masters of Environmental Science & Management (MESM) *(August 25, 2016)*
Fred Malik, FORTIFIED Programs Manager, Insurance Institute of Business and Home Safety *(April 3, 2014)*
Bryan Oakley, Coastal Geologist, Eastern Connecticut State University *(April 4, 2013, February 4, 2016 and December 1, 2016)*
Michael Oppenheimer, Ph.D., Princeton University *(May 3, 2016)*
Jon Reiner, AICP, (formerly) Director of Planning and Community Development Town of North Kingstown, Rhode Island *(November 25, 2013)*
Tim Reinhold, Senior Vice President, Research and Chief Engineer, Insurance Institute of Business and Home Safety *(April 3, 2014)*
Julie Rochman, President and CEO, Insurance Institute of Business and Home Safety *(April 3, 2014)*
Chelsea Siefert, (formerly) Principal Planner, RI Division of Planning, Statewide Planning Program (RISPP) *(September 29, 2015)*
Curt Spaulding, (formerly) US Environmental Protection Agency, Region 1, Boston *(January 20, 2015)*
Malcolm Spaulding, Professor Emeritus, URI Ocean Engineering *(January 20, 2015 and August 25, 2016)*
Richard St Jean, P.E., President, St Jean Engineering *(December 9, 2013)*
Robert Thieler, PhD., U.S. Geological Survey- Coastal and Marine Geology Program *(December 9, 2013)*
David Vallee, National Weather Service *(April 4, 2013)*
Kevin Ruddock, The Nature Conservancy *(October 22, 2014)*
John Torgan, Director of Ocean and Coastal Conservation, The Nature Conservancy, Rhode Island Chapter *(April 3, 2014)*
Joe Warner, Building/Zoning Official and Floodplain Manager, Town of Charlestown, RI *(July 24, 2014)*
Adam Whelchel, Director of Science, The Nature Conservancy Connecticut Chapter *(April 3, 2014)*

The Shoreline Change SAMP team is also very appreciative of the valuable input provided by the public throughout the process.

FUNDING

The CRMC gratefully acknowledges the funding provided by the following committed agencies and organizations in support of the data, tools, public engagement, and policies embodied in the Rhode Island Shoreline Change Special Area Management Plan:

Rhode Island Foundation

Rhode Island Office of Housing and Community Development – Community
Development Block Grant Disaster Recovery Program

Rhode Island Sea Grant College Program

State of Rhode Island Bays, Rivers, and Watersheds Coordination Team

University of Rhode Island Coastal Institute

University of Rhode Island College of Environment and Life Sciences, Marine Affairs

University of Rhode Island Environmental Data Center

University of Rhode Island Masters of Environmental Science and Management (MESM)

U.S. Department of Interior / National Fish and Wildlife Foundation

U.S. National Oceanic and Atmospheric Administration (NOAA)

Rhode Island Shoreline Change Special Area Management Plan

VOLUME 1

1. Introduction

1.1	Vision, Purpose, and Context of the Shoreline Change Special Area Management Plan	1-2
1.2	The Shoreline Change SAMP Scope and Project Boundary	1-5
1.3	Goals and Principles of the Shoreline Change SAMP	1-6
1.4	Contents of Shoreline Change SAMP Document	1-9
1.5	References	1-11

2. Trends and Status: Current and Future Impacts of Coastal Hazards in Rhode Island

2.1	Overview.....	2-2
2.2	Trends	2-3
2.2.1	Sea Level Rise.....	2-3
2.2.1.1	Historic Sea Level Rise.....	2-3
2.2.1.2	Projected Sea Level Rise.....	2-4
2.2.2	Storm Intensity.....	2-8
2.2.3	Increasing Precipitation	2-9
2.3	Coastal Hazards Resulting from These Trends	2-11
2.3.1	Flooding.....	2-11
2.3.2	Coastal Erosion.....	2-13
2.3.3	Groundwater and Saltwater Intrusion.....	2-14

2.4	Future Research Needs	2-16
2.4.1	Flooding.....	2-16
2.4.2	Coastal Erosion.....	2-18
2.4.3	Groundwater and Saltwater Intrusion.....	2-20
2.5	References	2-21

3. Assessing Coastal Hazard Risk

List of Figures	3-3	
List of Tables.....	3-3	
3.1	Assessing Coastal Risk and Resilience.....	3-4
3.1.1	Overview	3-4
3.1.2	Why Assess and Plan for Coastal Risk?	3-6
3.1.2.1	Coastal Risk by the Numbers	3-6
3.1.2.2	Coastal Risk: Lessons Learned and Case Examples	3-8
3.1.3	Institutional Context of Managing Coastal Risk in Rhode Island.....	3-13
3.1.3.1	Overview	3-13
3.1.3.2	Federal Agencies	3-13
3.1.3.3	Other State Agencies.....	3-14
3.1.3.4	Rhode Island Municipalities	3-16
3.1.4	The Components of Coastal Risk: Terms and Concepts	3-17
3.1.5	An Overview of the Coastal Risk Assessment and Management Process.....	3-19
3.1.5.1	Overview	3-19
3.1.5.2	Stage 1: Identify sources of risk and scenarios for planning purposes.....	3-20
3.1.5.3	Stage 2: Assess risk.....	3-26
3.1.5.4	Stage 3: Choose measures of adaptation	3-27
3.1.5.5	Stage 4: Implementation.....	3-27
3.1.5.6	Stage 5: Monitoring and evaluation.....	3-27
3.2	Tools to Assess Coastal Risk in Rhode Island	3-28
3.2.1	Overview	3-28
3.2.2	Pre-Existing Regulatory Tools to Assess Coastal Risk	3-29
3.2.2.1	FEMA Flood Insurance Rate Maps (FIRMs)	3-29

3.2.2.2	CRMC Historic Shoreline Change maps.....	3-29
3.2.3	RI Shoreline Change SAMP Planning Tools to Assess Coastal Risk in Rhode Island	3-30
3.2.3.1	STORMTOOLS.....	3-30
3.2.3.2	Projected Shoreline Change Maps.....	3-35
3.2.3.3	STORMTOOLS: Coastal Environmental Risk Index (CERI).....	3-36
3.2.3.4	STORMTOOLS: CERI-STORMTOOLS Design Elevations (CERI-SDE)	3-39
3.2.3.5	Sea Level Affecting Marshes Model (SLAMM).....	3-40
3.2.4	Regional Coastal Mapping Services	3-41
3.3	Future Research Needs	3-44
3.4	References	3-46
3.5	Appendix.....	3-53

4. Rhode Island’s Exposure to Coastal Hazards

List of Figures	4-3
List of Tables.....	4-5
4.1 Chapter Highlights.....	4-7
4.2 Introduction	4-11
4.3 Natural Environment.....	4-13
4.3.1 Beaches, Barriers and Headlands	4-14
4.3.1.1 Overview	4-14
4.3.1.2 Geologic Setting of the Rhode Island South Shore	4-14
4.3.1.3 Geologic Setting of Narragansett Bay	4-16
4.3.1.4 Physical Processes	4-19
4.3.1.5 Shoreline Protection Structures.....	4-30
4.3.2 Coastal Wetlands	4-33
4.3.2.1 Overview	4-33
4.3.2.2 The Effects of Sea Level Rise and Other Coastal Hazards on Coastal Wetlands 4-35	
4.3.2.3 South County and Block Island.....	4-39
4.3.2.4 Narragansett Bay.....	4-42
4.3.3 Other Coastal Habitats.....	4-45

4.4	Effects of Erosion on Rhode Island’s Coast.....	4-46
4.4.1	Historic Shoreline Change.....	4-46
4.4.2	Projected Shoreline Change.....	4-48
4.5	Built Environment	4-49
4.5.1	CRMC Exposure Assessment.....	4-50
4.5.1.1	Exposed Residential Structures.....	4-53
4.5.1.2	Exposed Commercial Structures	4-57
4.5.1.3	Exposed Public Service Structures	4-61
4.5.2	Other State Assessments	4-65
4.5.2.1	Demographics.....	4-66
4.5.2.2	Critical Infrastructure	4-67
4.5.2.3	Wastewater Treatment Facilities	4-68
4.5.2.4	Drinking Water Utilities.....	4-69
4.5.2.5	Transportation Infrastructure	4-70
4.5.2.6	Public Access and Recreation Assets.....	4-72
4.5.2.7	Historic and Archaeological Assets	4-74
4.6	Synthesis: Exposure of Rhode Island’s Coastal Region to Storm Surge, Coastal Erosion and Sea Level Rise	4-75
4.6.1	At-Risk Areas	4-75
4.6.2	Storm surge, coastal erosion and sea level rise in RI.....	4-75
4.6.2.1	Matunuck Headland	4-76
4.6.2.2	Misquamicut.....	4-79
4.6.2.3	Barrington, Warren and Bristol.....	4-81
4.7	Synergistic Effects of Storm Surge, Coastal Erosion and Sea Level Rise	4-82
4.8	Ongoing and Future Research and Analysis	4-85
4.8.1	Overview	4-85
4.8.2	Ongoing Research	4-85
4.8.3	Future Research Needs.....	4-86
4.8.3.1	The Built Environment	4-86
4.8.3.2	The Natural Environment.....	4-88
4.9	References	4-90

5. RI CRMC Coastal Hazard Application Guidance

5.1	Overview of Process	5-1
5.2	Using this Document	5-2
	STEP 1: Project Design Life.....	5-5
	STEP 2: Site Assessment and Base Flood Elevation	5-6
	STEP 3: Large Projects and Subdivisions (6 or more units).....	5-8
	STEP 4: Design Evaluation	5-9
	STEP 5: Submit an Application	5-12
5.3	Background Information for the 5-Step Application Process	5-13
5.4	Why has CRMC developed this process?	5-18
5.5	How does this process relate to other local, state and federal programs?	5-23
5.6	Which projects are expected to follow this process?	5-25
5.7	What are the roles of the applicant and CRMC?	5-25

6. State and Municipal Considerations

6.1	Overview	6-2
	6.1.1 Chapter Objectives.....	6-2
6.2	Projects of State or Regional Significance	6-4
6.3	Municipal Application of RI CRMC Coastal Hazard Application Guidance	6-5
6.4	Addressing Coastal Risk in Municipal Planning Initiatives	6-8
	6.4.1 Model Process for Coastal Risk Assessment and Local Comprehensive Plans.....	6-9
	6.4.2 Local Hazard Mitigation Plans & Community Rating System	6-11
6.5	Relationship of State Law to CRMC’s Coastal Hazard Application Process and Municipal Implementation	6-12
	6.5.1 State Building Code, Rhode Island General Laws 23-27.3	6-12
	6.5.2 Rhode Island Comprehensive Planning and Land Use Act 45-22.2	6-14
	6.5.3 Zoning Ordinances, Rhode Island General Laws 45-24	6-15
	6.5.4 Subdivision of Land, Rhode Island General Laws 45-23	6-17
	6.5.5 Highways and Mapped Streets	6-20
	6.5.6 Other Land Use Considerations	6-22

6.6	Future Research Needs	6-23
6.6.1	Financial Impacts, Incentives, and Cost/Benefit Analyses.....	6-23
6.6.2	Municipal Liability	6-24
6.6.3	Site Systems and Groundwater Dynamics.....	6-25
6.7	References	6-25

7. Adaptation Strategies and Techniques for Coastal Properties

7.1	Overview.....	7-2
7.1.1	Chapter Objectives.....	7-2
7.1.2	Defining Adaptation and Associated Concepts	7-3
7.1.3	Choosing to Adapt: Choices and Challenges.....	7-5
7.1.4	Adaptation: A Rapidly Developing Field	7-7
7.2	Adaptation Tools and Strategies for Coastal Properties.....	7-7
7.2.1	CRMC Guidance on Coastal Property Adaptation Tools and Strategies.....	7-7
7.2.2	Site Selection.....	7-9
7.2.3	Distance Inland	7-11
7.2.4	Elevation	7-12
7.2.5	Terrain Management	7-13
7.2.6	Natural and Nature-Based Adaptation Measures	7-15
7.2.7	Flood Barriers.....	7-17
7.2.8	Structural Shoreline Protection Measures	7-19
7.2.9	Modifying or Retrofitting Structures: Wet and Dry Floodproofing	7-20
7.2.10	Relocation or Managed Retreat	7-22
7.3	Future Research Needs	7-23
7.4	References	7-25

APPENDIX A: SUMMARY OF FUTURE RESEARCH NEEDS

GLOSSARY
